WINTER SPORTS ORDER OF DAY AT MACDONALD

What's New Among the Students
in Agriculture.

NEW ATHLETIC BOARD.

Two Winter Short Courses Are
Started at Ste. Anne Institution.

(McGill Daily Correspondence.)
MACDONALD COLLEGE, QUE., January 9.—The students of Macdonald College have once again fallen into line, and taken up their several tasks, feeling happy and refreshed, after a very pleasant holiday of two weeks, spent at their different homes. Winter has come in earnest, and skating and other winter sports are the order of the day. The rink has been put in running order, and on Saturday afternoon, the first skating of the season was held. Saturday evening was a very beautiful moonlight night, and skating would have been greatly enjoyed by all, had circumstances permitted, but it was decreed otherwise.

A few changes have taken place at Macdonald during the holidays. Mrs. Butler, of the Household Science staff, has left to take up her new position at Saskatoon, and her place has been filled by Miss Smith, of Truro, Nova Scotia, toward whom we already have very kind feelings, and we wish her every happiness and success in her new position.

A number of new faces have appeared in our midst. Two winter short courses have commenced. The girls attending these courses are a welcome addition to our numbers, and we are looking forward to a very pleasant winter spent together.

Sc. '17.

Y. M. C. A. Activities.

On Sunday, January 7th, an event of unusual importance took place, in that we had the pleasure of listening to an address by Mr. Murray Brooks, the Foreign Secretary of the McGill Y.M.C.A. As Mr. Brooks has spent several years in India and Ceylon, his address was looked forward to with much interest and pleasure, and needless to say, we were not disappointed.

The meeting was a united one, of both the Y.M.C.A. and the Y.W.C.A., and was held in the Assembly Hall at the usual hour. Our president, Mr. L. R. Jones, before introducing Mr. Brooks, welcomed the Y.W.C.A. to our meeting, and said that a union meeting seemed a very suitable one to have on the first Sunday of the New Year. He then called upon Mr. Brooks, who gave us an address on the subject of "Conditions in India."

In opening his address Mr. Brooks first described conditions at the front, especially in Mesopotamia, and the great part played by the Y.M.C.A. secretaries there. He told us that the honor of sending the first Y.M.C.A. secretaries to any front, in the present war, fell to India, as they were first sent out from there, twelve in number. He then told of the hardships of the life in India, the hardships which all Y.M.C.A. men and missionaries of the Gospel were undergoing cheerfully, in order that they might help the many million inhabitants of that great land. He told us of many encouraging signs, which showed that Christianity was advancing, and filling a real place in the lives of the peoples dwelling there. It was taking a place that neither Mohammedanism, Hinduism, nor Buddhism could take, and more than that, it was helping the people to improve their physical as well as their spiritual well-being.

We all learned a great deal from Mr. Brooks' address, and more than that, we received much good food for thought. He is indeed, a very earnest and thoughtful speaker.

There was a good turnout of fellows, but very few of the opposite sex, which is to be much regretted, especially when we have such a splendid speaker as Mr. Brooks provided himself to be.

Next week we expect to have Mr. Lovell Murray, of New York, with us. Mr. Murray is the Educational Secretary of the World's Student Conference, and a speaker of wide renown. We intend having another union meeting if possible, as Mr. Murray is too good a speaker to keep a larger number of the fair sex will be present, and thus help to support both the Y.W.C.A. and the Y.M.C.A. to ourselves. We sincerely trust that (Continued on Page 4)

SC. '17 COMMITTEES
APPOINTED TO-DAY.

A meeting of the Class of Science 1917 is called for 5 o'clock TO-DAY in Room 33 of the Engineering Building. Although the meeting will be a short one, the business to be brought up will concern all, and a full attendance is urged. The matter of class pictures, the collection of a class fee, and the election of a picture committee, the historian, and the valedictorian are to be discussed.

FAT ALLEN IN KILTS!

Lieut. Gordon Harrower on
Thrilling Flight Over the
Enemy Lines.

McGill Daily Correspondence.

CROWBOROUGH, ENG., December 24.—In this camp, where the Canadian Military School and the Canadian Engineers' Training Depot are located, there are a number of McGill undergraduates in training to proceed to the front.

Captain Norman B. Allen (Fat), Arts '17, has been attached to a reserve battalion in another part of England, and will eventually go to the 15th Battalion (Toronto Highlanders). Capt. Allen will make a husky Highlander.

Lieut. James Shanly, Sci. '17, has left Crowborough to instruct an infantry battalion at Bramshott in field works.

Lieut. Louis H. Biggar, Arts '19, has gone from the Canadian Military School to the 92nd Reserve Highland Battalion, and from that unit will probably go to the 13th Highland Battalion at the front. Lieut. Biggar went overseas with the 148th Battalion.

Lieut. Eric Pope, Sci. '17, and Lieut. "Pussy" Winslow, Sci. '19, are at Crowborough with the Engineers, as are also Lieut. W. Stanley Cole, Sci. '17, who has been instructor in musketry, and Lieut. Hugh Crombie, Sci. '17.

Lieut. W. E. Bull, Sci. '15, who was at the front with the Canadian Engineers, and was wounded, is an instructor at the Engineers' Depot at Crowborough.

Lieut. Ken Blackader, Arch. '19, is with the First Highland Reinforcing Company at Sandling.

Capt. Clarence N. McCuaig, past student, is adjutant of the Canadian Military School at Crowborough. He was with the 13th Battalion, and was invalided home.

Capt. Winchester H. Biggar, Arts '17, is now officer in command of the Canadian Army Service Corps depot at Hastings.

Lieut. "Boysie" Woods, Sci. '17, is now officer in command of a Mechanical Transport Park of the Army Service Corps in France.

Lieut. Gerald Birks, Sci. '18, is convalescing from his wounds in London, and is carrying his arm in a sling.

Lieut. Arthur Garland, Sci. '16, has been placed in charge of the stables of the Signal Department of the Engineers at Crowborough.

Lieut. L. E. L. Koelle, Arch. '17, who went over with a draft for the Divisional Signal Company, has transferred to the Canadian Engineers, after endeavoring to secure a transfer from the Signallers to the Royal Flying Corps.

Lieut. Eric Slessor, Arts '18, was at the Canadian Military School at Crowborough, but has gone to France to join the 60th Battalion.

Lieut. Gordon S. Harrower, Arts '17, was one of 85 aviators to go over the lines and raid Germany recently. He was lost about 65 miles from his aerodrome, and was reported missing. Finally he reached his station.

Lieut. Phil S. Fisher, Arts '16, has been engaged in coast defence duty with the Flying Corps, and recently bombed a submarine.

BIBLE CLASSES RALLY SUPPER HELD AT HALL

Classes Have a Social Evening
Before Resuming Study.

WAS GOOD ATTENDANCE.

J. Bradford, Rev. Mackenzie and
M. G. Brooks Speakers, Give
Helpful Addresses.

The sixty-five men who attended the Bible-Study supper in the McGill Y. M. C. A. made that meeting one of the most successful that has been held by that institution this session. Shortly after six o'clock last evening the members of the Bible Classes which have been conducted by the McGill Y. M. C. A. since last fall met in Strathcona Hall, and were given supper by the Social Committee.

Mr. John Bradford, Community Secretary of the Central Y. M. C. A., was the first called upon, by Mr. Walsh, the chairman, to contribute to the programme of the evening. Mr. Bradford is well known in Montreal, and to students of the University, as one of the few men who can tell stories and make them one and all very laughable. Mr. Bradford provoked a scream of laughter from the time he commenced, and was a sensation to those who had not heard, and a delight to those who had, by the endless variety of stories he always has at his command.

The Reverend Mackenzie was next called upon, and he gave a helpful and inspiring address on Bible Study. There is danger in reading books about the Bible, the speaker said, if we do not corroborate the statements made in the book by what the Bible says. Bible study saves us from spiritual narrowness. It saves us from personal hobbies, or from following along the line of least resistance. By reading the Bible we get a religion that has a proportion which we can not arrive at in any other way. The religion of the Bible, moreover, is a comprehensive religion. Rev. Mackenzie then named three of England's greatest statesmen as an example of the wonderful power which truly religious men have. The Hon. Lloyd George, Premier of England, has a passion for the manhood of Britain, but in this he is guided by the inspiration he has obtained from a deep knowledge of the Bible. The religion in the Bible is an intensely personal one, and to find this out we have only to read any of the Psalms. Social relationships are also clearly brought out, and in the Bible we find burning indignations against wrong, and a strong appeal for purity. Political relationships here shown is that we must have an all-round religion. One of the most potent things about the religion of the Bible is that it is an eternal one, and it is the centre of great eternal facts. "We cannot study the Bible with moral neutrality, for it will liberate us from our prejudices, from the bonds of custom, and from selfishness."

The study of the Bible means to us more than we at first imagine. It is a defence against temptations, and when we are on the verge of failure those truths we have come to know will leap up to our aid. It brings us face to face with sin and with purity. There is a marvellous source of inspiration to do, and to be better contained in this book, and though it is often thought otherwise, the Bible is a human document, and it has not, as used to be supposed, been dropped from Heaven as the people of the Hindoo type think that their has. It is rather a record of human experience, and it gives us a standard of values. From it we can take examples, axioms and teachings for guidance.

Mr. M. G. Brooks, the returned McGill missionary from Ceylon, was then called upon by Mr. Walsh, Mr. Brooks, in commencing, said that since leaving McGill in 1910 he has (Continued on Page 3.)

LIEUT. IN MORTAR BRIGADE.

News has just reached the University that John Austin Loy is Lieutenant in a Trench Mortar Brigade, with the Third Canadian Division. Lieut. Loy was a member of the class of Science '17, and before coming to McGill was educated at Ottawa Collegiate Institute. In the spring of 1915, Lieut. Loy enlisted with the First University Company commanded by Captain Greor Barclay. For some time he was in the trenches as reinforcements to the Princess Pats, but later was transferred to the Mortar Brigade.

APPLICATION FOR
HOURS AT THE
CAMPUS RINK.

As the Campus Rink is now open for the season, applications from the various faculties for hockey hours should be forwarded immediately to J. O. W. Rooney, President of the Hockey and Skating Club, O Strathcona Hall. As soon as the representatives of the O different faculties will be held O and hours allotted, and a O schedule drawn up for Wood O Cup games.

Ageing and Blending

ROSE QUESNEL

Native Canadian Tobacco

We have seen in our previous advertisements that, from the selection and first planting of the seed to the ultimate packing of the cured plant, it is a constant solicitude to the planter.

The tobacco, packed in bundles arrives at our warehouses where the stock is inspected, and, if the leaf appears to be well cured and of good quality it is "passed." Then the "hands" are packed upon each other in regular rows in large casks where they are compressed in a very solid mass and the casks stored in our cellars where the tobacco ages for two years. It is the slow, sure way of perfectly maturing tobacco in wooden casks which gives it that mellowed smoothness you taste in every pipeful of Rose Quesnel.

When perfectly aged the Quesnel Tobacco and Rose Tobacco, the two most fragrant and aromatic varieties of tobacco grown in Canada are blended by experts, in scientific proportions, the result of years of research and experiment, and, it is then ready to be cut and packed for the trade.

ROSE QUESNEL Smoking Tobacco

MILD AND NATURAL

is an ideal blend of native pipe tobacco. You cannot get greater tobacco satisfaction than ROSE QUESNEL will give you; it is free from sting or bite, does not dry or parch the mouth and it is cool, sweet, mild and fragrant.

Try a package 5¢ At all dealers.

ROSE QUESNEL Tobacco is the product of the choicest natural native leaf, properly grown, dried and cured and guaranteed free from artificial flavoring and "filling."

It is all tobacco and nothing but tobacco.

The Rock City Tobacco Co. Limited

FACE BURNED WHEN BEARD CAUGHT FIRE

Peter Clark Says He Is Through With Further Christmas Celebrations.

It is likely that Peter A. G. Clark, Arts '17, president of the Arts Undergraduate Society, will think twice before he again consents to act as Santa Claus at the Christmas celebration of a Sunday School. When he was approached to act in this capacity at a Christmas tree held in Threemile River during the holiday, Mr. Clark readily agreed, in view of the fact that he was the only person whom the children would not recognize. When it came time for him to distribute the gifts on the tree, Peter failed to notice a burning candle in close proximity to his beard, and the result was that in a second Santa Claus' beard was a thing of the past, and half a dozen people were busy undressing Mr. Clark in an effort to put out the fire, which had spread to other parts of his clothing. With the exception of slight burns on the face, Mr. Clark, who returned to the University on Monday, is none the worse for his experience.

LAW STUDENT ENLISTS. McGill Daily is informed that yet another student has responded to the call to arms. Louis Loranger, a graduate of St. Mary's College, and a member of the class of Law '19, has "signed up" with the 79th Canadian Field Artillery. Gunner Loranger is a grandson of Judge Loranger.

BIBLE CLASSES RALLY SUPPER HELD AT HALL.

(Continued from Page 1.) travelled 100,000 miles around the world, and had met students of many nations. In all he found a passion to know Jesus Christ. The speaker then showed what a wonderful character this Man had been. Coming from a small country, the smallest province of the Roman Empire, this Galilean has been an outstanding figure since His day. To-day He was the moral force which was ruling the world. Mr. Brooks then said that the Christian religion was one of big things, and that we should not be troubled by the minor details which so many always place in the way. If they are taken too much notice of, that is out of comparison with the greater and more vital truths, they so often are nothing more than a stumbling block, which cause us to seriously stray when there is in reality no need to do so. College men when they leave, make a mark in the world, and the need is to have fellows who are educated on the religious line, and most of all to know the great character of all New Testament teaching, to get to know this Man as one who has undergone the same experiences as we have, and not as a mystical being. The religion we have to-day must be an advance on what our fathers, grandfathers, or those who lived 200 years ago had. We must get to know this Man better, and what His teachings are, and what the Man stands for.

Mr. Walsh then explained the nature of the supper and the work which the association would carry on for the remaining five months of the year. He invited all those who were not enrolled in a Bible Class to do so, and meet with one of the five classes which meet on Sunday. With the singing of the National Anthem, and rendering of the McGill yell, the dinner broke up.

SCIENCE '17 MAN ENLISTS. The class of Science '17 have one more name to add to their roll of honour—that of James I. Stockwell, of Danville, Que., cousin of Lt.-Col. Ralph Stockwell, Fort Garry Horse, a graduate of Law at McGill, now stationed at Folkestone.

"Jimmie" enlisted early last spring with the 117th Eastern Townships Battalion, which trained at St. John's and later at Valcartier. In this unit his older brother, Howard, held the rank of sergeant. At the end of August the Battalion proceeded to England, and were stationed at Bramshot Camp.

News has just reached the University which states that "Jimmie" has obtained his transfer to the Royal Flying Corps, and will proceed to Oxford directly to take his course as Flight-Lieutenant.

SOLDIER TOP SCORER IN THE CITY LEAGUE

Teddy Behan, of McGill, Has Scored Five Goals For Red and White.

Billie Young is again this season showing his consistent playing by leading the City League in scoring, despite the fact that his team have as yet failed to register a win. It must be stated, however, that two of their losses have been by the single goal margin. Teddy Behan, of McGill, a new-comer to the League, is running a close second to Young, and will no doubt keep Young hustling to hold his lead.

Following is a list of scorers to date:

Young, 244th	6
Behan, McGill	5
Laurendeau, Laval	4
McGee, Loyola	2
Musgrove, Shamrock	3
Davidson, Shamrock	3
Desbriens, Laval	3
Limoges, Laval	3
Gallery, Loyola	2
Loneragan, Loyola	2
Richardson, 244th	2
McCulloch, McGill	2
Kelley, McGill	1
Poe, McGill	1
Dufresne, Laval	1
Lavallee, Laval	1
F. Dufresne, Laval	1
Slater, Loyola	1
Allan, Shamrock	1
Welland, Shamrock	1
Roberts, 244th	1
Gill, 244th	1
Dandurand, National	1
Masson, National	1

for the remaining five months of the year. He invited all those who were not enrolled in a Bible Class to do so, and meet with one of the five classes which meet on Sunday. With the singing of the National Anthem, and rendering of the McGill yell, the dinner broke up.

SCIENCE '17 MAN ENLISTS. The class of Science '17 have one more name to add to their roll of honour—that of James I. Stockwell, of Danville, Que., cousin of Lt.-Col. Ralph Stockwell, Fort Garry Horse, a graduate of Law at McGill, now stationed at Folkestone.

"Jimmie" enlisted early last spring with the 117th Eastern Townships Battalion, which trained at St. John's and later at Valcartier. In this unit his older brother, Howard, held the rank of sergeant. At the end of August the Battalion proceeded to England, and were stationed at Bramshot Camp.

News has just reached the University which states that "Jimmie" has obtained his transfer to the Royal Flying Corps, and will proceed to Oxford directly to take his course as Flight-Lieutenant.

R. V. C. A. A. There will be a meeting of the executive of the R. V. C. Athletic Association today at 1 p.m., in the Common Room.

KEPT IN ENGLAND. Capt. Sir Stopford B. organizer of the prospect's McGill Overseas Siege Battery, has been detained in England on staff duty, and will not return to Canada for five weeks.

'18 ANNUAL MED. AND LAW JUNIORS ARE TRANSGRESSORS

List of Clubs, Societies, and Juniors Whose Copy is Still Lacking.

FEW GROUP PICTURES.

Much Material Remains to be Submitted to Board.

Continuing the policy of publicity and open exhortation, as commenced in yesterday's issue of The Daily, the Annual Boards publish the following, which points are of vital interest, especially to the members of the Junior Year.

At this late date there remain, in addition to that list of men published in the preceding issue of this paper, about thirty-five Juniors who have not as yet complied with the regulations adopted by the Business Board, namely: that all photographs be taken before January 1st, 1917. Unfortunately this number is so large that it is not thought expedient to go to press without their contributions. The date, therefore, has been extended until the 15th instant. This will allow these men sufficient time in which to have their photographs taken, and proofs accepted. The Gordon Studios at 411 St. Catherine Street West, are the "Annual Official Photographers," and Mr. Gordon has made special arrangements to look after these procrastinating individuals, who are mainly of the Medical and Law Faculties. Sittings can easily be arranged, and the following men are hereby warned that the time to act has arrived. These are of the Medical Faculty, Messrs.

E. C. Brown	E. B. Carter
R. Davis	E. H. W. Elkington
R. A. MacArthur	J. W. McKenzie
Wm. M. McLeod	A. R. Newsam
I. Y. Patrick	N. H. Ritchie
H. E. Skeete	D. H. Stoughton
R. R. Struthers	

Dental Students.

F. D. Derrick	E. J. Jarjour
D. P. Mowry	A. F. Oberg
Jack Rosen	Louis Shachter

Law Students.

J. G. Ahern	Wm. F. Bowles
B. Bernstele	F. P. Dillon
W. P. Hughes	J. H. King
Lyons Levine	R. V. Malliet
D. Phillips	B. Robinson
A. Savard	B. A. Schwartz
L. S. Yuill	

Partial Students.

The question of the partial students of the Junior Year of the Arts Faculty sharing pro rata with the members of the Junior Year, has received attention at the hands of the editorial staff, with the result that with the exception of A. M. Terroux, they shall be excluded on the grounds (a) That they do not pay the Universal Fee, and consequently have taken no part in student affairs and (b) that they have not been three years at McGill, and have not attained "Junior Standing."

Attention is also drawn, in this article, to those men who have neglected to return their proofs to the Gordon Studios, among which number are F. J. Mars, Med. '18 and E. M. Wosberg.

"A word to the wise is sufficient."

A few words yet remain to be said re the different clubs, societies and year contributions, which in the past have proved so troublesome to the Annual Editorial Boards: Let this, therefore, be the authority that co-operation is demanded of every student occupying an executive position in the undergraduate body. All correspondence is to be addressed to "The Editor, '18 Annual, McGill Union."

It has been customary in the past to include a group picture of the smaller, and an executive group picture of the larger, clubs, societies, undergraduate societies, athletic clubs, etc., etc., in the Annual. This practice will be continued this year if the group photos and the accompanying reading matter be in the hands of the Boards before the Dummy has been finally ruled up, which will be done, to the exclusion of the delaying clubs, as soon as sufficient copy is in to make the Annual up to contracted size. It therefore behooves all to get in touch with the Business Representatives from the various years, who will receive the completed copy, the length and scope of which was suggested in yesterday's Daily.

The following is a list of the clubs, societies, etc., the Boards will run, providing the requirements are met before going to press.

- Students' Council.
- *McGill Daily.
- *Union Executive.
- The Arts, Science, Law, Medicine, and Dental Undergraduate Societies. (*Arts).
- The first, second and graduating years of the various Faculties (*Arts IV.). (*Arts I.).
- *V. M. C. A.
- Literary and Debating Society.
- *Tennis Club.
- Harrier Club.
- Boxing, Wrestling and Fencing Club.
- Architectural Society.
- Wesleyan Theological College.
- Presbyterian Theological College.
- Congregational Theological College.
- Diocesan Theological College.
- *Historical Club.
- *Maccabean Circle.
- *Philosophical Society.
- *Chemical Society.
- *Electrical Society.
- *Mandolin Club.
- *Band.
- *Mining Society.
- *Railway and Mechanical Engineering Society.
- *American Club.
- Athletic Association.

The Royal Military College of
Canada.

THERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government Institution, designed primarily for the purpose of giving instruction in all branches of military science to cadets and officers of the Canadian Militia. In fact, it corresponds to Woolwich and Sandhurst.

The Commandant and military instructors are all officers on the active list of the Imperial Army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and in addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures health and excellent physical condition.

Commissioners in all branches of the Imperial service and Canadian Permanent Force are offered annually.

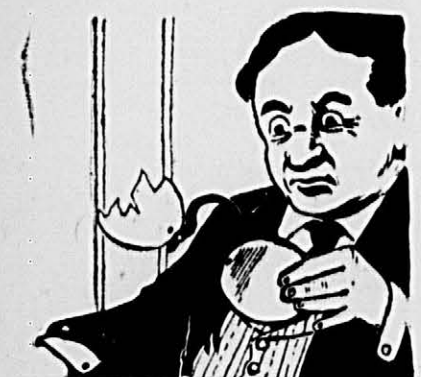

The diploma of graduation is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario, it obtains the same exemptions as a B.A. degree.

The length of the course is three years in three terms of six months each.

The total cost of the course, including board, uniform, and other material, and all extras is about \$800.

The annual competitive examination for admission to the college, takes place in May of each year, at the headquarters: the several military districts.

For full particulars regarding this examination and for any other information, application should be made to the secretary of the Militia Council, Ottawa, Ontario, or to the Commandant, Royal Military College, Kingston, Ont.

GLASSES WILL GET

BROKEN

occasionally, even with the best of care. If yours meet with an accident, don't throw them away, especially if they suited your eyes satisfactorily. Bring the broken lenses here and we will replace them with new lenses of exactly the same strength. We can match any glass at any time.

WINTER SPORTS ORDER OF DAY AT MACDONALD.

(Continued from Page 1.)

C.A. activities. A very cordial invitation is extended to them.

The last meeting of the Y. M. C. A. before the holidays, was held on Sunday, December 3rd. As no special speaker had been provided, a few hymns were sung and a little business disposed of. Mr. G. C. Canine was elected secretary-treasurer for the remainder of the year, to take the place of Mr. J. W. Graham, who has enlisted. The meeting then closed with the Lord's Prayer.

Locals from "Mac."

The first hockey practice of the Macdonald team was held on Saturday afternoon last. Some good material turned out, but a few of the players had not returned from the holidays, hence the practice was not quite as good as it might have been. However, these players are expected back next week, and the next practice should show a very good turnout. Manager Laurie still shows his usual good form, playing the same steady game throughout, having fully recovered from his recent operation. After the practice mixed skating was indulged in.

On Saturday afternoon next, Jan. 13th, the Macdonald team expects to meet the Winona on the ice. The puck will be faced at 2.45 sharp. A good game is anticipated, as Macdonald will by then have their full complement of players to draw from.

Just before the holidays, at a meeting of the Student Body, a new board of officers for the Athletic Association was elected. The following men took office at the beginning of the ensuing year:

Hon. Pres.—Dr. F. C. Harrison.
Hon. Vice-Pres.—Prof. Barton.
President—R. J. M. Reed
Secretary—J. Welsh.
Treasurer—F. Dobie.
Rink Manager—W. Woodwork.
Rink Secretary—Ashton.

On Saturday evening, Dr. and Mrs. Harrison entertained a few of the young people of the college at a small informal dance. Miss Dolly Harrison, who is at home just now for the Christmas holidays from Haverhill College, Toronto, received with her mother, Miss Trevelyan, Montreal, who recently completed a course in Household Science at Macdonald College, assisted Mrs. and Miss Harrison in the entertainment of their guests.

Short Course Initiation.

Initiations in general, have long been recognized as the most valuable and permanent means of "breaking the ice" for all newcomers to any institution of learning, and especially has this been the case here at Macdonald. As the Science girls, who have already one term here, and who are destined to spend a second and third, received their initiation from the Senior Science girls, they were more than willing to try their hand at the game, by initiating the two short course classes; one, the regular Short Course Science Class, and the other, the special class in dressmaking.

Early Saturday morning—it seemed more like late Friday night—we all gathered in a large room, clad in heavy coats, caps, and rubbers, and were assigned our different duties. Owing to the fact that the members of the regular Short Course are rooming in the Main Building, and that the members of the Class in Dressmaking are rooming in our residence, we divided ourselves into two groups, and silently stole away. Locked doors flew open in a mysterious manner, and beds were dumped of their mysterious occupants and all. So was everything else in the rooms, bureau drawers, tables, and all. Seven short minutes were allowed the occupants to be dumped beds to extricate themselves from the jumbled and mixed-up mess, and to clothe themselves suitably for a long walk.

Once more we all joined forces, the strangers being blindfolded. Several artists painted the initials W. S., and added other sundry touches to their faces with iodine. Next followed a tablespoonful of molasses, and then one of flour. Such epicures they were! A few more stunts and the long walk began. And for music—every horn, tin pan, whistle, bell, and mouth organ in the country seemed to be in evidence. The walk ended up by a circuit of the men's residence, from whence much applause and cheering issued. Citing one case in particular, when one of the victims was asked to sing, by the large audience of fellows, who more than filled the open windows of the residence, she gave a very dismal rendering of "I love you truly." Needless to say, she got no further than the first line, but even this little effort much added amusement and laughter. On the return to our residence, the usual rules and restrictions were read, the breaking which are to be followed by the direct of punishments. When the bell rang for breakfast, we obeyed the summons, leaving our new sisters busy with several iodine removers.

We welcome most heartily the two new Short Course Classes, and trust their stay here will be a very pleasant one.

—G. M. R., Sci. '17.

'19 Gave Supper.

On December 18th, the members of Class '19 gave a small supper in honor of the three men who have enlisted during the Christmas holidays. It seems that Graham, who enlisted a few weeks ago, has set the ball rolling among the Sophomores, and three more have joined the colors. James Adams and Jack Butler are now with the 79th Battery in Montreal, and Walter Kingsland is with the Royal Air Service, waiting the word to go overseas.

The supper was not an elaborate one, and no formalities were observed. And in spite of the apparent good spirits of all present, the fact that we were losing three of our staunchest classmates made the company rather serious and thoughtful. Before the members dispersed, the class president made a short address to the men who have enlisted, and only in the nature of a last gathering, an elaborate one, and without formality, the Class sought to honor the departing classmates, and the food was only in the nature of a last gathering.

DR. CHIPMAN IS NEW INSPECTOR OF HOSPITALS

Will Assist in Direction of Work
of Commission.

IS EDINBURGH GRADUATE.

Work of Hospitals Commission Is
Increased by Arrival of
Bed Cases.

The Military Hospitals Commission Bulletin announces that Dr. W. W. Chipman, M.D., '11, professor of obstetrics and gynaecology in the Faculty of Medicine, and a physician with extensive medical, surgical and hospital medical experience, has been appointed Medical Inspector of Convalescent Hospitals to assist the Medical Superintendent. Latterly the work of the Military Hospitals Commission has increased largely through the additional hospital accommodation secured for bed cases, which were formerly treated in England. From now on, it is intended to send a large number of cases to Canada, which will require "active" and not merely "convalescent" hospital treatment. To meet this new condition the work of the Commission will be not only greatly increased, but widened in scope.

Dr. Chipman is a native of Wolfville, N.S., and a graduate of Acadia University in Arts, and of Edinburgh University in Medicine. He received the degree of M.D., C.M., ad eundem gradum, from McGill in 1911. At Edinburgh he gained the Buchanan scholarship, giving him the position of resident surgeon to the University gynaecological wards of the Royal Infirmary. Later he was appointed resident house surgeon to the Royal Memorial Hospital, and in 1897 was named house surgeon to the Bolton Infirmary in Lancashire. Later he was assistant to Prof. Barbour, of Edinburgh.

As a commencement, accommodation has been secured for over 1,600 bed cases, including: At Montreal, 80 in the Royal Victoria Hospital, and 300 in a wing of the Grey Nunnery, now partly occupied by convalescent soldiers; at Ottawa, 80 in St. Luke's Hospital; at Kingston, 600 in the Queen's University building; at Winnipeg, 100 in the General Hospital; at Edmonton, 150 in the Strathcona Hospital; and at Vancouver, 300 in the General Hospital.

For convalescents the Commission has secured the Loyola building, Montreal, now the Drummond St. Military Convalescent Hospital, to contain 200 patients as well as the Commission's Montreal office; also, the Rest Haven building, erected before the war as a sanatorium, at Sidney, Vancouver Island, about twenty miles from Victoria, with accommodation for 200. The Spadina M.C.H. at Toronto, for 230, and the Ontario Military Hospital at Cobourg, for 150 neuroathenic cases, appear in the list of institutions already occupied, but may be mentioned here because they have been opened since the last bulletin was issued.

For tuberculosis patients, since the date of that issue, sanatorium accommodation has been secured at Kingston for 175, at Hamilton for 175, at London for 110, at Frank for 60, at Kitchener for 30, and at Sunny View, near Kamloops, B.C., for 20. Particulars of the new buildings necessitated at Kingston, Hamilton and London, are given.

New hospitals and sanatoria will be opened when and where they may be required.

There is a decided scarcity of physical instructors, owing to the great demand for them in army training. Masseurs also are hard to get. The Commission is itself training the men required, being unable to procure them otherwise. Sergeant Major Kendall has been put in charge of this work at Toronto, where the first class has just graduated. Fifty additional men, specially selected from the "base duty" soldiers held in England as being unfit for service at the front, are being now brought over to be trained for this work.

Eventually, and as soon as possible, every Convalescent Hospital will have its physical instructor. The exercises carried out under this system, and massage, with baths of various kinds, have proved most helpful in the recovery of strength and suppleness. Some of the more complicated

as it is possible that the members of the present Sophomore Class may never have an opportunity of all meeting together again. Then in a few words he summarized the splendid co-operation that the enlisted men have given to class and college activities, and ended by wishing them "God speed" and a safe return.

Jack Butler replied for the members who are in khaki, and said that he appreciated the feed and the spirit in which it was given, and wished to thank the Sophomores for it.

The loss of these three men will be a severe blow to the Sophomore Class and to the College, where they commanded the respect and esteem of staff and students alike. We know from their actions in sport and every day life at Macdonald that they will give a good account of themselves when tested out in the "last great game of all," and so we extend to them our sincerest wishes for their welfare and safe return.

F. W. D.

PRACTICE OF MCGILL JUNIOR HOCKEY TEAM

First Game With Victorias on
January 18.

The Junior Amateur Hockey Association of Canada will open its season to-night at the Victoria Rink, Fargo and Victoria teams being the contestants. As the McGill Juniors are scheduled to play their first League game against the Victoria at the Arena on the 18th instant, it is desirable that as possible before this game. With this object in view the first practice will be held this evening at 7.30, and it is the duty of every student who wishes to make the team to turn out for this practice.

With the hockey material in college this year, there should be no trouble in winning the Junior championship.

Players who take part in fifty per cent. of the League games will be awarded a small block "M."

The following men, as well as all others, who wish to make the team, and whose names are not mentioned here, are requested to be on hand for the first practice at the Campus Rink at 7.30 sharp, to-night: Lally, Naud, Kramer, Lowry, McKinnon, Hunter, Armitage, Rothschild, Badger, Common Cross, Caldwell, Jack Robillard, etc.

18TH ANNUAL. (Continued from Page 3.)

Football Club.
Hockey Club.
Basketball Club.
Track Club.

*Those clubs and societies having photographs taken.

*Those clubs or societies whose proofs have not been returned.

The above are exclusive of the R. V. C. Societies, and those of Macdonald College.

The secretaries of the above clubs, which have not had their photographs taken, are exhorted to take this matter in hand directly, and co-operate with us and Mr. Gordon, that the copy may be ready "in toto" by the 22nd instant.

HANDBOOK ON TUBERCULOSIS.

A little handbook for soldiers suffering from tuberculosis, showing them how to counteract the disease, and also how to prevent its spread from themselves to their families and others, has been printed by the Commission. It is by Capt. J. R. Byers, M.D., '02, the specialist in charge of the two sanatoria at Ste. Agathe, Que. A copy has been sent to every tuberculous Canadian soldier, both in Canada and overseas.

SCIENCE '20 MEETING.

A very important meeting of Science '20 has been called for tomorrow at five o'clock sharp, in Room 33 of the Engineering Building. As business of interest to every member of the class is to be discussed, all members are earnestly requested to be present.

JOINS FLYING CORPS.

William Johnson, late of Science '19, has been accepted for the Royal Flying Corps, and while his transfer to the Royal Naval Air Service goes through, will make a transcontinental trip to Vancouver and return. He expects to go overseas upon his return.

cated machines invented to exercise particular muscles and joints, on the other hand, have not proved as successful as was at one time hoped.

Electrical massage is employed with excellent effects, for nerve troubles and some forms of rheumatism. Every hospital either has or will shortly have an electric equipment with this object.

The new hospital for nerve cases at Cobourg—the old building of Trinity College—is particularly well equipped. For instance, it has the electric cabinet, in which heat is generated by electricity; needle baths, shower baths, nozzle baths; continuous hot water baths, for the whole body, and for particular limbs; and baking or dry heating apparatus, which is very effective in certain affections of the joints.

The X-ray apparatus has proved absolutely essential. It is used chiefly for locating foreign bodies and otherwise assisting diagnosis. It is being installed in all the larger hospitals.

Do It Now Don't Delay

PROVINCE OF QUEBEC

DEPARTMENT OF COLONIZATION, MINES AND FISHERIES.

The chief minerals of the Province of Quebec are Asbestos, Chromite, Copper, Iron, Gold, Molybdenite, Phosphate, Mica, Graphite, Ornamental and Building Stone, Clays, Etc.

The Mining Law gives absolute security of Title and is very favourable to the Prospector.

MINERS' CERTIFICATES.

First of all, obtain a miner's certificate, from the Department in Quebec, or from the nearest agent. The price of this certificate is \$10.00, and it is valid until the first of January following. This certificate gives the right to prospect on public lands and on private lands, on which the mineral rights belong to the Crown.

The holder of this certificate may stake mining claims to the extent of 200 acres.

WORKING CONDITIONS.

During the first six months following the staking of the claim, work on it must be performed to the extent of at least twenty-five days of eight hours.

SIX MONTHS AFTER STAKING.

At the expiration of six months from the date of the staking, the prospector, to retain his rights, must take out a mining license.

MINING LICENSE.

The mining license may cover 40 to 200 acres in unsurveyed territory. The price of this license is Fifty Cents an acre per year, and a fee of \$10.00 on issue. It is valid for one year, and is renewable on the same terms, on producing an affidavit that during the year work has been performed to the extent of at least twenty-five days' labor on each forty acres.

MINING CONCESSION.

Notwithstanding the above, a mining concession may be acquired at any time at the rate of \$5.00 an acre for SUPERIOR METALS, and \$3.00 an acre for INFERIOR MINERALS.

The attention of prospectors is specially called to the territory in the North-Western part of the Province of Quebec, north of the height of land, where important mineralized belts are known to exist.

PROVINCIAL LABORATORY.

Special arrangements have been made with the POLYTECHNIC SCHOOL of LAVAL UNIVERSITY, 228 ST. DENIS STREET, MONTREAL, for the analysis of minerals at very reduced rates for the benefit of miners and prospectors in the Province of Quebec. The well equipped laboratories of this institution and its trained chemists ensure results of undoubted integrity and reliability.

The Bureau of Mines at Quebec will give all the information desired in connection with the mines and mineral resources of the Province, on application addressed to

HONORE MERCIER,

Minister of Colonization, Mines and Fisheries, Quebec.

GET YOUR WORK DONE AT THE Y. M. C. A. BARBER

SHOP, 127 DRUMMOND ST.,
WHERE SPECIAL RATES ARE GIVEN TO
MCGILL STUDENTS.

To Investors

THOSE WHO, FROM TIME TO TIME, HAVE FUNDS REQUIRING INVESTMENT, MAY PURCHASE AT PAR

DOMINION OF CANADA DEBENTURE STOCK

IN SUMS OF \$500 OR ANY MULTIPLE THEREOF.

Principal repayable 1st October, 1919.

Interest payable half-yearly, 1st April and 1st October by cheque (free of exchange at any chartered Bank in Canada) at the rate of five per cent per annum from the date of purchase.

Holders of this stock will have the privilege of surrendering at par and accrued interest, as the equivalent of cash, in payment of any allotment made under any future war loan issue in Canada other than an issue of Treasury Bills or other like short date security.

Proceeds of this stock are for war purposes only.

A commission of one-quarter of one per cent will be allowed to recognized bond and stock brokers on allotments made in respect of applications for this stock which bear their stamp.

For application forms apply to the Deputy Minister of Finance, Ottawa.

DEPARTMENT OF FINANCE, OTTAWA.
OCTOBER 7th, 1916.
